Working PDFs in This Folder

#	Title	Size	How to Open
R28	XGBoost: A Scalable Tree Boosting System (Chen & Guestrin 2016)	923 KB	Ready
R16/R33	Key Parameters in Adsorption for Effective Fluoride Removal (MDPI 2024)	633 KB	Ready
R15	Al-OH Activated Carbon for Fluoride Removal (Springer 2016)	1.3 MB	Ready
R35	Scikit-learn: Machine Learning in Python (Pedregosa 2011)	41 KB	Ready
R10	Coconut Shell Isotherm and Kinetics (Innoriginal 2019)	757 KB	Ready

For the Remaining Papers — Fastest Methods

Paper: WHO Drinking Water Guidelines (R30)

Problem: WHO website blocks direct downloads **Solutions (try in order):** 1. Go to <https://www.who.int/publications/i/item/9789241549950> 2. Click “English PDF” button 3. **Alternative:** Search Google Scholar: “WHO drinking water fluoride guidelines 2017”

Paper: WHO Fluoride in Drinking Water (R31)

Problem: WHO website blocks direct downloads **Solutions:** 1. Go to https://www.who.int/water_sanitation_health 2. Look for Download link 3. **Alternative:** Check your university library

Paper: Coconut Husk Fixed Bed Adsorption (R7)

Best source: ResearchGate 1. Go to <https://www.researchgate.net/publication/323670439> 2. Scroll down → Click “Request full-text” button 3. Author responds in 24–48 hours 4. **Or** use Unpaywall extension: <https://unpaywall.org>

Paper: ML for Groundwater Fluoride (R29)

Problem: IOP Science requires authentication **Solutions:** 1. **Unpaywall extension** (2-min setup): <https://unpaywall.org> 2. **University library** → search by DOI: 10.1088/1748-9326/aad487 3. **ResearchGate:** Search “ML groundwater fluoride Guo 2018”

Paper: Statistical Learning (R36 - ISLR)

Problem: Official link appears down **Solutions:** 1. Go to <https://www.statlearning.com> and search for PDF link 2. **Alternative source:** Search Google: “ISLR2 free PDF download” + select official site 3. Often available on author websites (James, Witten, Hastie, Tibshirani)

Papers: JSTOR, Wiley (R25, R18)

Problem: Paywalled, require institution/subscription **Solutions (try in order):** 1. **University VPN + library login** → search journal by DOI 2. **Unpaywall extension** → auto-finds free versions 3. **Email corresponding author** (always works!) - Format: “Dear Prof. [Name], I’m researching fluoride adsorption. Could you share your paper [title]? Thank you.” 4. **ResearchGate** → “Request full-text”

Fastest Setup (5 minutes)

Install Unpaywall Extension

1. Go to <https://unpaywall.org>
2. Click “Install extension”
3. Open any paper’s journal page → green shows if free version exists
4. Click → downloads PDF instantly

Then:

1. Search each paper title in Google Scholar
2. If Unpaywall shows green → click download
3. If not → use ResearchGate or email author

Current Status

Total Free Papers Available: 21
Downloaded (Real PDFs): 5 (24%)
Successfully Readable: 5
Remaining (need manual action): 16 (76%)

Papers Ready to Read Right Now:
R10, R15, R16/R33, R28, R35

List of All 21 Free Papers (For Reference)

Category	Papers	Downloaded
Coconut Husk Adsorption	R7, R9, R10	R10 only
Reviews	R13, R16, R18, R34	R16
Machine Learning	R25, R27, R28, R29, R35, R36, R37	R28, R35

Category	Papers	Downloaded
Water Quality	R30, R31	(WHO blocks)
Springer Open Access	R15	R15
Public Domain (1898–1918)	R1, R2, R5	Historical

Next Steps

1. **Immediate** (now): Open the 5 PDFs you have using any PDF reader
2. **Today** (5 min): Install Unpaywall → get 5+ more papers
3. **This week**: Email 3–4 authors for the rest (they usually respond)

No more waiting for downloads — you can start reading R28, R35, R16, R15, R10 right now!

For questions or issues opening any PDF: - PDF not opening? Try a different reader (Preview, Adobe Reader, Chrome) - Need a specific paper? Email the corresponding author directly
